CUSTOMISABLE MITEAM 19

The T19 range is fully customisable with 19 colours that can be used to create your own unique designs. Each garment has a customisable base colour and side panel. Stripes can be added and also customised or removed completely. The adidas logo can be moved to the sleeve and is also customisable in colour.

The miTeam 19 range has 5 new sublimated graphics, as shown below, which are available for short sleeve, long sleeve and tanks only. The chosen graphic is applied onto the front of the jersey, leaving the back plain to allow for names and numbering.

MiTeam leadtime is 45 days from order to delivery*. Names, numbers and initials can be printed onto garments and logos can be printed or embroidered. Sublimated garments can have sublimated personalisation on the front of garments only.

MiTeam 19 gives you the flexibility to create your kit, your way.
